Academic Honesty

Students are expected to maintain high standards of academic honesty. Failure to abide by this may result in a zero on the examination, or even failure in the course.

Students are also expected to adhere to appropriate scholarly conventions in essays and research papers. This class includes paper assignment(s) in which students must give credit to all outside sources used by means of citations and a bibliography. Failure to do so may result in a zero on the paper assignment, or even failure in the course.
