#### **Course Overview**

Christianity is the largest religion in the world, and it's impact is felt in every country, including China. Since more than 85% of Americans identify themselves as Christian, everybody who spends time in America (including foreign students!) will encounter this religion. Besides, there are Christians in virtually every country throughout the entire world, including China!

Christianity is a large and complex tradition of religion that is based on the figure of Jesus Christ who promises eternal life in Heaven if you live your life in a certain way. In this class, we will study the rise of Christianity from its roots in the more ancient religion of Judaism, spend time reading the two most important gospels of the Bible that present the life of Jesus, and analyze how he came to be believed in as both God and human. We will study some of the major events that defined Christianity, and also look at some important figures including emperors, mystics, singers, and missionaries. We will also study the one great separation in Christianity between Catholics who believe in the Pope and Protestants who do not. We will also study the rituals, holidays, and cultural attitudes of Christians in the modern world.

#### **Course Goals:**

A student who satisfactorily completes this course should:

1. Summarize a brief history of Christianity
2. Summarize the relation between the Old Testament and New Testament
3. Summarize the basic Christian beliefs and doctrines
3. Summarize Christian rituals and sacraments

### ***Academic Honesty***

Students are expected to maintain high standards of academic honesty. Specifically, unless otherwise directed by the professor, students may not consult other students, books, notes, electronic devices or any other source, on examinations. Failure to abide by this may result in a zero on the examination, or even failure in the course.

Students are also expected to adhere to appropriate scholarly conventions in essays and research papers. This class includes paper assignment(s) in which students must give credit to all outside sources used by means of citations and a bibliography. Failure to do so may result in a zero on the paper assignment, or even failure in the course.

Also note that everything you will need to do great on the mid-term and final comes exclusively from our class readings and lectures, therefore avoid the Internet at all costs—I can easily see, and the consequences will be harsh.
